Quantica Renovables	Full	3y	Yes	Yes	Yes	Files for you	No	Yes	Paid

How to read this table. Full = manufacturer warranties extended to their full term. Files for you = subsidy paperwork submitted on your behalf; Advice only = guidance, then referral elsewhere. Yes* = advertised on the website but not guaranteed in the company's terms and conditions. — = not published, or we could not find it. Warranty figures are in years.

Method. 21 companies selected across English-speaking regional installers and national brands operating in Spain. Each was checked across its homepage, services pages, FAQs, site search and published terms and conditions. This records what companies publish, not what they may do in practice — a blank is an absence of published information, not proof a service is unavailable. Data collected September 2026 and accurate as at that date. Compiled by Marblanc Solar. If your company is listed and this record is wrong or out of date, email [EDITOR: insert correction email] and we will update it and note the correction.
